## Introduction

Since version 0.2.5 of the add-on it is possible to use the “TV” feature of Kodi to directly access the different live TV streams offered in Catch-up TV & More.

This feature has several advantages (non-exhaustive list):

- Take full advantage of the TV guide managed by Kodi
- Organize different channels into groups
- One place to group the channels of other PVR (TNT, Satellite, ...)
- If a new TV channel is available in the add-on via an update, it is also available in the TV section of Kodi

**Brokenwood**  
Saison:5 - Episode:4 - L'hôpital psychiatrique désaffecté de Brokenwood Downes est devenu le lieu favori des adolescents. Au cours d'une nuit d'orage, un jeune couple est horrifié par la découverte du cadavre d'un homme, électrocuté par un appareil à électrochocs. Accrochée à son orteil, une étiquette «tortionnaire» semble indiquer un motif. La victime est l'ancien directeur du lieu, Jakob Deschler, qui aurait été invité par un journaliste inconnu à le rejoindre sur place. Au cours de son enquête, Mike Sheperd rencontre une psychothérapeute qui ne le laisse pas indifférent.
